

Business Continuity Planning

Minimising Your Risk. Reducing Your Losses.
Helping You Improve your Profits.

WORKING with YOU in PARTNERSHIP

Identification of business critical
assets, communications, infrastructure,
records and personnel
Prioritisation of risk exposures

Development of crisis management
and business continuity plans
based on assessment of risk exposure.
Identification of standby assets

Planning, implementation,
feedback and review of simulations,
“table top” exercises and emergency
scenarios.
Media and reputation issues.

Methodologies developed by
Stafford Mundell & Turner Limited teams
are in daily use in many high risk industries,
such as oil, gas and petrochemicals.

Many businesses are awakening to the
realisation that they operate in an
increasingly volatile external
environment.

How prepared is your business to respond to a
major incident, fire, explosion, power or
communication failure?

Could you continue to manufacture your goods
or provide your services?

How would you communicate with your
customers?

In the case of a major incident how would you
handle the reputational issues arising from
adverse media coverage?

Stafford Mundell & Turner Limited can work
with you to develop robust plans for...

- Local Tactical Response
- Tactical Support
- Strategic Management
- Media & Stakeholder Communications

Stafford Mundell & Turner Limited can also
provide additional services, supporting *your*
business....

- Identifying business continuity
and reputational issues
- Developing procedures
- Identifying and training key staff
- Simulation training and feedback
