For more information on Insurance Support Services and other related Risk Assessment products contact Stafford Mundell & Turner Limited today email: info@smtconsult.com

Our services are total. Provided by qualified, experienced at working in the Insurance Industry and who have many years experience combined with an up to date knowledge of the latest legislation that is the envy of many of our competitors. Our documentation can be tailored to suit your specific needs.

PROPERTY LOSS CONTROL

We analyse the physical environment, utilities, activities and controls related to pre-agreed threats involving site inspections and discussions with appropriate personnel and the testing of key safety equipment. Our resultant reports will provide details of your existing status; proposals for improvement; our qualified opinion of risk and a defined estimate of potential Property Loss in financial terms.

BUSINESS INTERRUPTION

We provide a detailed report on the potential interruption factors following loss or damage by an insurance peril with estimated maximum loss data and where appropriate cost effective and practical risk improvements.

SECURITY

We provide a review of your current status, designed to ascertain adequacy of existing standards and provide an action plan for improvement

EMPLOYERS & PUBLIC LIABILITY

Inspections of organisations to ascertain their commitment to and compliance with statutory requirements.

PRODUCT LIABILITY

A review of product related exposures with the resulting report providing recommendations to reduce or transfer the identified risks.

MOTOR

We review the current control standards and analyse past losses, reporting on recommendations for improvement on any identified trends or weaknesses. Guidance, where required, for appropriate training courses, for example, defensive driving.
